

Terms and Conditions

Mobile Application: **Vitamin G**

Last Updated: June 9, 2026

1. Acceptance of Terms

By downloading and using Vitamin G (the "App"), you agree to these Terms and Conditions. This is a legally binding agreement between you and Kyle Harrington (the "Developer"). If you do not agree with any part of these terms, please do not use the app.

2. Description of the Service

Vitamin G is an application designed to help you practice daily gratitude and track your goals across four tiers, from immediate wins to lifelong ambitions. The app provides tools to monitor your streaks, log check-ins, and stay motivated. It is provided strictly as a self-improvement tool, and we make no guarantees regarding specific real-world outcomes resulting from its use.

3. Account Registration and Sign in with Apple

To access the app, you must create an account using "Sign in with Apple." During setup, you will create a profile that includes a display name, username, and an optional avatar color and short bio. You are entirely responsible for maintaining the security of your Apple ID credentials and for any activity that occurs under your profile.

4. User Content and Public Sharing

You retain full ownership of all goals, notes, and profile data you create. You have the option to make certain goals public, which will share your goal title, category, duration, and username to the Explore/Discover feed. Your private notes and daily check-in details are never made public. If you encounter content you do not wish to see, you can easily use the app's block feature to hide specific users from your public feed.

5. In-App Purchases and Tip Jar

Vitamin G's core features are entirely free to use, with no subscriptions or paywalls. If you enjoy the app, you may choose to support its development through a voluntary "Tip Jar" using Apple's In-App Purchase system. These tips are one-time, consumable purchases and are non-refundable by the developer, subject strictly to Apple's App Store refund policies.

6. Notifications

The app uses local push notifications to send you a daily morning reminder to review your goals. We do not use server-side push notifications, meaning your data is not routed through external servers just to alert you. You have total control over these reminders and can disable them at any time via your device's iOS settings.

7. Privacy and Data Storage

Your privacy is fundamentally important to us. Your goals, check-ins, streaks, and profile data are stored locally on your device via SwiftData. You may optionally choose to sync this data to your personal iCloud account via CloudKit; the developer has absolutely no access to your private iCloud data. Furthermore, Vitamin G contains zero third-party advertising or analytics tracking software.

8. Account Deletion

You maintain complete control over your data and can permanently delete your account directly from within the app at any time. Initiating account deletion will immediately erase all your locally stored data and permanently remove any of your public content from our servers. Please be aware that this action is irreversible.

9. Prohibited Conduct

We strive to keep the Vitamin G community a positive and encouraging space. You agree not to post any public content that is offensive, abusive, illegal, or intended to harass or mock other users. We reserve the right to remove inappropriate public content or terminate the accounts of users who violate these community standards.

10. Disclaimer of Warranties

Vitamin G is provided on an "as is" and "as available" basis. While we work hard to ensure a smooth and reliable experience, we cannot guarantee that the app will be entirely free of bugs, technical interruptions, or errors. We disclaim all warranties, whether express or implied, regarding the app's performance.

11. Limitation of Liability

To the maximum extent permitted by applicable law, Kyle Harrington shall not be liable for any indirect, incidental, or consequential damages arising from your use of the app. This includes, but is not limited to, data loss, missed goals, disrupted streaks, or technical failures.

12. Changes to These Terms

We may update these terms occasionally to reflect changes in the app's features or legal requirements. If we make significant material changes, we will notify you directly within the app. Your continued use of Vitamin G after any modifications are posted constitutes your acceptance of the updated terms.

13. Contact Information

These Terms shall be governed by and construed in accordance with the laws of the State of New Jersey, United States.
